Scope of Work Agreement: GEMinAizer Video Assessment

Effective Date: 11 June 2026
Service Provider: Reputation Interpretation Services, LLC ("Provider")
Client: [YOUR NAME HERE] ("GEMinAizer Client")

1. Purpose

This Scope of Work (SOW) outlines the terms, deliverables, and foundational principles under which Reputation Interpretation Services, LLC will perform a GEMinAizer assessment of a Client-submitted YouTube video or video segment.

2. Methodological Foundation

This service is conducted under the auspices of the Authenticated Ethical Integrity Agency (AEIA). The AEIA operates as a Thinking Cooperatively Human-Computer Interaction (HCI) 39-month Development Entity.

The analytical methodology merges the computational framework of Geminia 3.1 Pro with the curation and personal expertise of PM Thomas, Data Sommelier.

3. Deliverables

Upon submission of the agreed-upon YouTube link, the Provider will execute the GEMinAizer process. The Client will receive a final assessment report containing:

- **Five Key Points: A distilled extraction of the video segment's primary concepts.**
- **Time Stamps: Precise time-coded indexing for each of the five points, mapped directly to the source video.**
- **Reusable Format: The final report will be delivered in a plain text or strictly reusable text format, allowing the Client to easily integrate the findings into their own materials.**

4. Client Declarations, Warranties, and Indemnification

By submitting the video link for AEIA Assessment, the GEMinAizer Client formally declares, warrants, and agrees to the following:

- **Right of Submission: The Client possesses the necessary legal rights, permissions, and authority to submit the specific video segment for this assessment process.**
- **Indemnification: The Client agrees to indemnify, defend, and hold harmless Reputation Interpretation Services, LLC, the AEIA, and its officers or agents from any and all claims, liabilities, damages, and expenses (including reasonable legal fees) arising from a breach of the Client’s declaration of legal**

rights. Should a third party, including copyright holders or platform administrators, initiate legal or punitive action regarding the unauthorized submission or analysis of the provided video segment, the Client assumes full financial and legal responsibility.

5. Guiding Principles, Limitations, and Data Handling

To ensure transparent and ethical execution, this agreement is bound by the following structural foundations:

- **Framework: The Google and YouTube Terms of Service, alongside the Alphabet AI Principles, serve as the ethical and operational foundation for this assessment.**
- **Data Processing and Retention: Reputation Interpretation Services, LLC strictly utilizes the provided URL to analyze the content in accordance with platform policies. To ensure full compliance with YouTube Terms of Service, the Provider does not download, copy, host, archive, or distribute the source video file at any time. The GEMinAizer process strictly yields the text-based interpretive report, after which no raw media data from the submission is retained by the Provider or the AEIA.**
- **Nature of Deliverable: The resulting report and analysis are rendered strictly as a Perspective and Opinion. This**

assessment constitutes an interpretive service provided by Reputation Interpretation Services, LLC and should be utilized by the Client with that understanding.
